## About the Workshop

The Constitution of India had provided equality of opportunity in educational institutions under Article 29(1). It states “No citizen shall be denied admission into any educational institution maintained by the State or receiving aid out of State funds, on grounds only of religion, race, caste, language or any of them”. Teaching profession is a noble profession and teacher is a life-long learner. To provide quality education we need quality teachers with the advanced knowledge, skills, positive attitude, competencies, capabilities, and teaching-learning resources. According to Benjamin Franklin who is credited with the saying: “If you fail to plan, you are planning to fail!” ... Taking the time to establish a plan, can exponentially increase the chance of the business being successful. The National Education Policy 2020 is a road map for future of India. The main aim of the Workshop cum Faculty Development Programme (FDP) is to provide innovative techniques for professional development of teachers in higher education to serve the nation to achieve the global goals. The fourth goal of Sustainable Development Goals (SDGs) is Quality Education. It is our utmost priority to provide quality education for all. The NEP 2020 has stressed the need of collaborative learning, learning, research and extensional programmes. Education and Development are two sides of the same coin National Development. Let’s try to start our new journey while joining hands together for overall development of our future citizens.
